ARCHITECTS

Marta Alarcón, Guillem Bigas,
Albert Estruga, Diogo Porto, João Salsa

ARQUITECTURA-G is a Barcelona-based architectural practice founded in 2006. They work applying the best custom-made solutions in search of a humane architecture. They have a broad experience in renovation of historical architecture and their current work combines international projects of unique renovations and new constructions.

Their work has been widely published in national and international media, and has received several awards, most notably the Emerging Architect Prize of the European Union Prize for Contemporary Architecture – Mies van der Rohe Award 2015. In addition to their architectural practice, they are in charge of the architecture section of Apartamento Magazine, and they established the furniture company Indoors in 2012.
